Gabrielle Ndoro

Front-end Developer

An entry-level developer offering enthusiasm and an understanding of various front-end languages and technologies. Passionate about responsive web design, all things functional and user-friendly. I am a fast learner, willing to explore and experiment with other front-end languages and frameworks.

WORK EXPERIENCE

Junior Front-end Developer - Internship

Novodigital - October 2021 - December 2021

- Developed React Components that made up the interface and pages of a Property Review Application
- Using the mobile-first approach, I was able to implement the design features of the application into a working interface, accessible on both mobile & desktop.

Lead Provider

Call On Me Marketing - May 2021 - Oct 2021

- Effectively communicated with clients and deescalated upset clients to identify issues and create solutions for a better, more customer-focused experience.
- Supported and executed initiatives from upper management to ensure we are meeting our targets to provide at least 100 leads a day, collectively

EDUCATION BACKGROUND

Associates Degree in Computer Science

University of the People | 2021 - 2023

Full Stack Web Development Bootcamp

HyperionDev | 2020
